Assistant Commissioner for Patents  
Washington, DC 20231

Sir:

**PRELIMINARY AMENDMENT**

In order to place the above-identified application in better condition for examination, please amend the application as follows:

**IN THE CLAIMS**

Claim 8, lines 1 and 2, change "any one of claims 4 to 7" to -- Claim 4 ...

Claim 13 (Amended) A method for modulating the activity of an enzyme having AHCY-type activity which includes amino acids 177 to 314 of the amino acid sequence of Figure 1, or a functional portion or functional equivalent of said enzyme [according to claim 1] in a patient, comprising administering to said patient a DNA construct according to [any one of ] claim[s] 8 [to 12].

**HART**  
**Serial No. Unassigned**

Claim 14 (Amended) A method of amplifying the activity of an enzyme having AHCY-type activity which includes amino acids 177 to 314 of the amino acid sequence of Figure 1, or a functional portion or functional equivalent of said enzyme [according to claim 1] in a patient comprising administering to said patient a DNA construct according to claim 10.

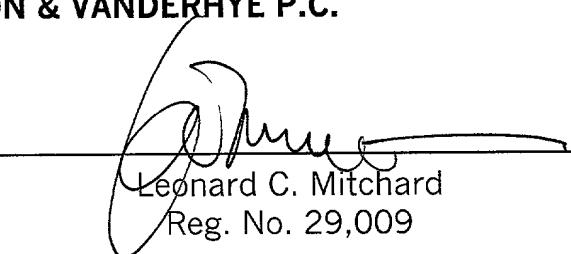

Claim 15 (Amended) A method of supressing the activity of an enzyme having AHCY-type activity which includes amino acids 177 to 314 of the amino acid sequence of Figure 1, or a functional portion or functional equivalent of said enzyme [according to claim 1] in a patient comprising administering to said patient a DNA construct according to claim 11 [or claim 12].

**REMARKS**

The above amendments are made to place the claims in a more traditional format.

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
